

MID-ATLANTIC NATIVE PLANTS

Native plant picks for home landscapes.
Beautiful. Beneficial. Built for Delmarva.

Why choose native plants?

- Support pollinators, birds, and beneficial insects.
- Adapted to local soils and climate = low maintenance.
- Require less water and fertilizer once established.

Perennials

Reliable color and habitat value year after year.

Plant type	Blooms	Benefits
Purple coneflower <i>Echinacea purpurea</i>	Jun-Sept	Butterflies, seeds for birds
Butterfly weed <i>Asclepias tuberosa</i>	Jun-Aug	Monarch host plant
Wild bergamot <i>Monarda fistulosa</i>	Jul-Sept	Bees, hummingbirds
Goldenrod <i>Solidago spp.</i>	Aug-Oct	Late-season pollinators

Trees and shrubs

Structure, shade, and food sources year-round.

Plant type	Season	Wildlife Value
Serviceberry <i>Amelanchier canadensis</i>	Spring	Birds, pollinators
Virginia Sweetspire <i>Itea virginica</i>	Summer, Fall	Bees, fall foliage
Summersweet <i>Clethra alnifolia</i>	Summer	Bees, butterflies
White Oak <i>Quercus alba</i>	All	Host to 500+ species

Quercus alba • keystone species; essential for native biodiversity!

Trees and shrubs

Structure, shade, and food sources year-round.

Plant type	Light	Notes
Allegheny Spurge <i>Pachysandra procumbens</i>	Shade	Spring blooms, evergreen
Creeping Phlox <i>Phlox subulata</i>	Sun	Spring carpet of colorful flowers
Pennsylvania Sedge <i>Carex pensylvanica</i>	Part shade	Grass-like, soft texture

Sun/drought-tolerant favorites.

Tough, beautiful, and wildlife-friendly; ideal for sunny borders, meadows, pollinator strips.

- Black-eyed Susan; *Rudbeckia fulgida*
- Bear grass; *Eryngium yuccifolium*
- Blazing star; *Liatris spicata*
- Threadleaf Coreopsis; *Coreopsis verticillata*

Deer-resistant native picks.

Tough on deer, gentle on pollinators.

Plant type	Type	Notes
Bear grass <i>Eryngium yuccifolium</i>	Perennial	Spiny texture deters browsing
Wild bergamot <i>Monarda fistulosa</i>	Perennial	Aromatic leaves repel deer
Virginia sweetspire <i>Itea virginica</i>	Shrub	Tolerates wet soils
Threadleaf Bluestar <i>Amsonia hubrichtii</i>	Perennial	Soft, fern-like foliage
Rough goldenrod <i>Solidago rugosa</i>	Perennial	Late-season pollinator magnet

Note: No plant is 100% deer-proof—but these are rarely their first choice.
